

## Mission Statement

My mission is to always be an educator.

To create an atmosphere that supports and allows our team members to achieve their full potential. I will use the game of football to develop the values of leadership, discipline, sportsmanship and integrity among our team. Building men who will grow into strong teammates, grateful sons, loyal brothers, faithful husbands, and loving fathers will be worth more than any game on the football field. I will always look for opportunities to teach.

I will also teach the game of football through fundamentals, principles, concepts, and safety. I will continue to be a student of the game, so that I can better coach players, and mentor assistant coaches. The program is a direct reflection of the school, the community, and my coaching, thus it is important that the program embraces the schools ideals and policies.
